To begin the shipping adventure.  
Let me tell you how it all started...

It all started in (1) \_\_\_\_\_ when the Army Corps of Engineers recommended (2) \_\_\_\_\_ for a safe location to build a port to serve South Texas producers of (3) \_\_\_\_\_. In September 14, (4) \_\_\_\_\_ the Port of Corpus Christi opened to the World of Commerce. From that day until today many things have changed. Because of the (5) \_\_\_\_\_ found in (6) \_\_\_\_\_, the port's major tonnage changed from (7) \_\_\_\_\_ to (8) \_\_\_\_\_. Years passed and (9) \_\_\_\_\_ were getting bigger and bigger, so the channel was made (10) \_\_\_\_\_ deep in (11) \_\_\_\_\_. In the (12) \_\_\_\_\_, the (13) \_\_\_\_\_ started to do more business with (14) \_\_\_\_\_ and the rest of the (15) \_\_\_\_\_. Moving through the (16) \_\_\_\_\_ century, products like (17) \_\_\_\_\_ and other (18) \_\_\_\_\_, (19) \_\_\_\_\_, (20) \_\_\_\_\_, and other products will travel through the (21) \_\_\_\_\_ to their final destination.

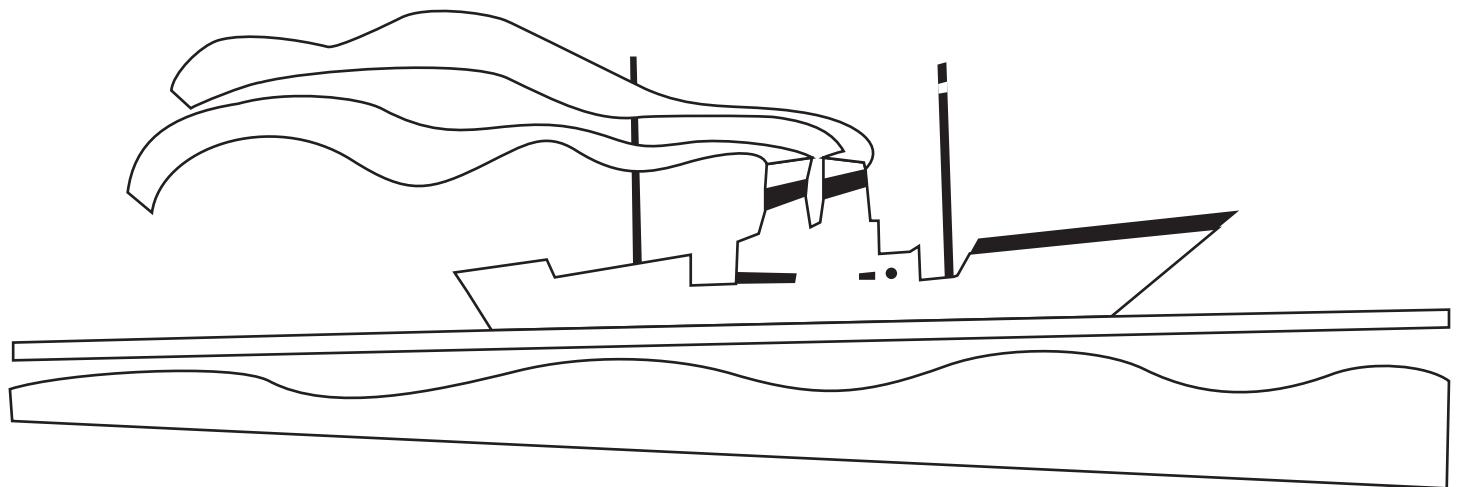

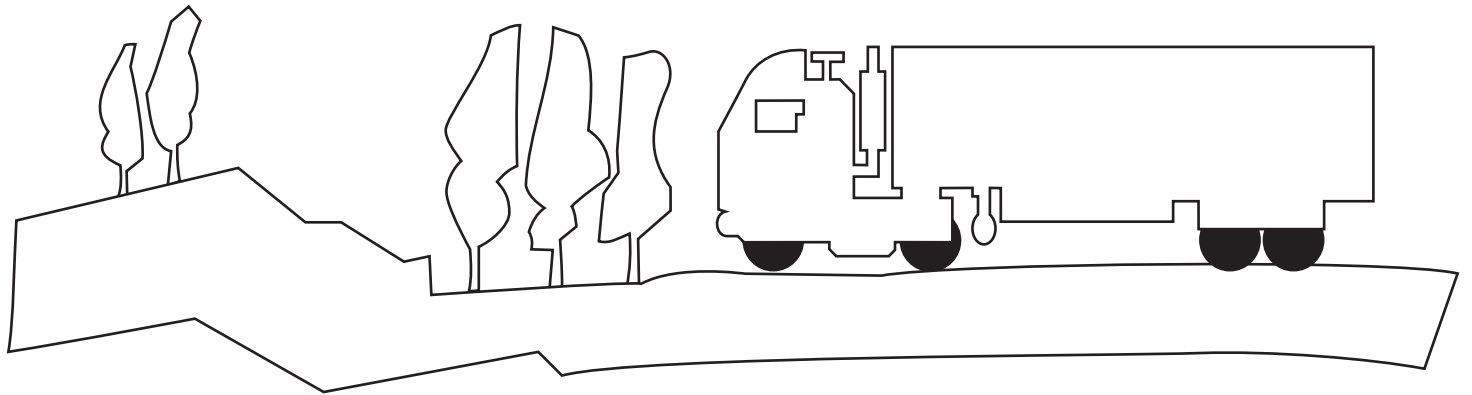

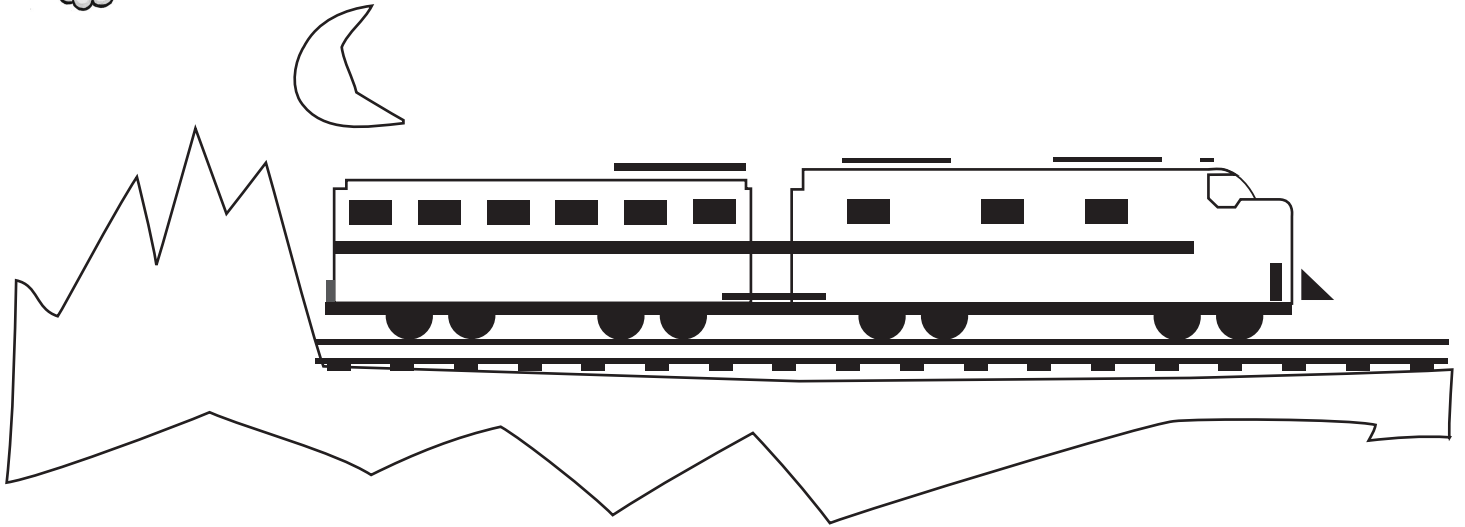

Choose one answer for each blank from the box below and draw it in the space.

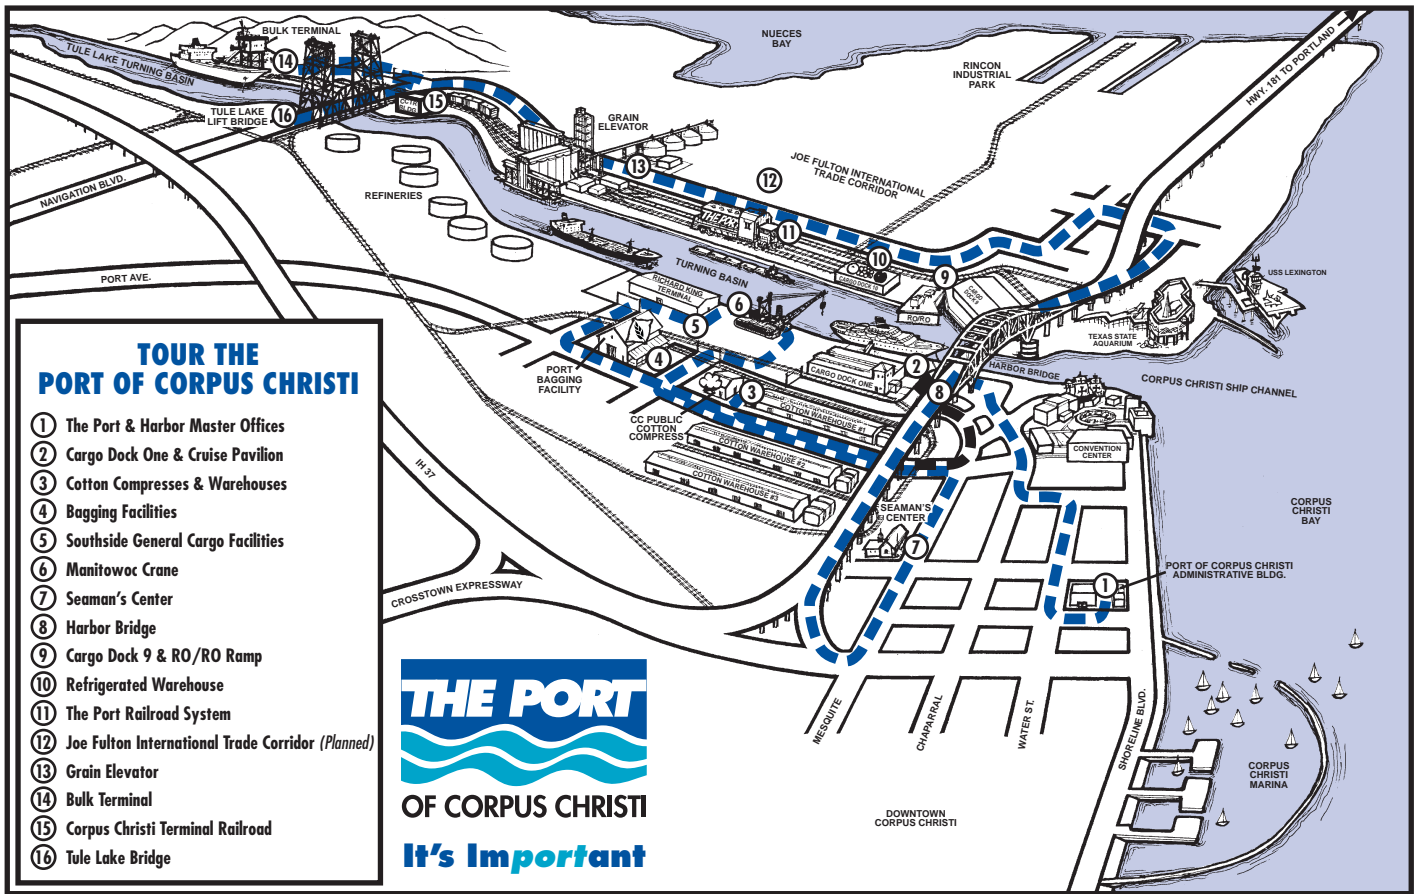

Products can come and go at the  
Port of Corpus Christi via trains, trucks and  
ships to their final destination.
